

Vita 41 Control Channel Working Group

- Legacy VME systems
 - Typically Single chassis
 - Self contained system
 - Stand alone solution

- Today
 - System boundaries span chassis
 - Require Fast Dynamic Remote Management
 - Application Launch
 - System reconfiguration
 - Cluster management

Vita 41 Control Plane Proposal

- Gigabit Ethernet control plane
 - Exist on RFU pins
- Independent of Data Plane
- Consideration for redundancy
- Potential outgrowth for VXS.9
